

PP-R – 2012

**BOREX**
S Y S T E M

Borex este specializat în sisteme PPR avansate, având o filosofie axată pe dezvoltarea durabilă, ecologică și responsabilă a sistemelor de apă rece și caldă, care vor deservi generațiilor viitoare.

Țevile PPR și accesoriile Borex sunt eficiente energetic din punct de vedere al producției, și oferă protecție maximă împotriva contaminării în timpul utilizării. Puternice, durabile, ușoare și flexibile, sistemele noastre necesită mai puțină energie la procesul de fabricare, transport și instalare decât alternativele lor. Cu rezistență superioară la coroziune și abraziune, asigură durată de viață lungă, precum și conectarea rapidă a fittingurilor. Având sisteme de fabricație recunoscute pe plan internațional, echipa noastră de ingineri utilizează cea mai nouă tehnologie în producția de PPR.

Dovada că produsele noastre sunt de înaltă calitate, este cererea tot mai mare a acestora pe piața Europeană și în Orientul mijlociu.

Țevi și fittinguri PPR
